Friesecken sind aus hochwertigem mundgeblasenem Überfangglas hergestellt. Das Muster ist mehrstufig eingeschliffen und teilweise poliert.

Fries squares are made of high quality mouthblown glass. The designs are engraved in different layers and partially polished.

98 610 25 60x60x90 mm

Laserinnengravur ist eine neue Technik für die dekorative Glasgestaltung. Diese neue Technologie macht es möglich, lichtdurchlässige Werkstoffe wie Glas und Kunststoff im Inneren durch Laserpunkte zu gravieren, ohne die Oberfläche zu beschädigen. Die Lasergravur befindet sich im Werkstoff und ist somit vor allen Einflüssen geschützt. Mit dieser Technik lassen sich sowohl zwei- als auch dreidimensionale Designs im Werkstoff realisieren.

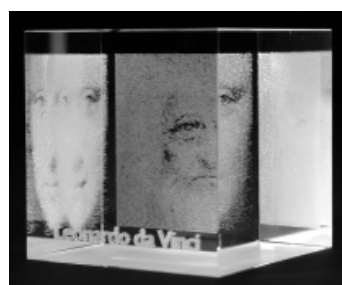

Bis zu einer möglichen Motivgröße von ca. 1420 x 620 mm und einer maximalen Werkstückgröße von ca. 4000 x 1500 mm können wir Glas mit dieser neuen Technik bearbeiten. Gestalten Sie doch einmal Lichtausschnitte für Türen, Tischplatten und Hinweisschilder für die Laserinnengravur.

Internal laser engraving is a new technique for decorative glass production. This new technology makes it possible to engrave the interior of transparent materials such as glass and plastics by generating laser points within the material while leaving the surface unblemished. While the laser engraving is located within the material it is therefore protected from external influences. With this technology two and three dimensional designs can be generated within the material.

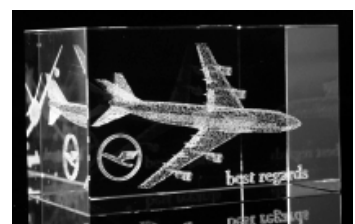

This new technology enables the engraving of designs up to 1420 x 620 mm using materials up to 4000 x 1500 mm. Decorate your glass door inserts, table tops and signs with internal laser engraving.

Sie können aus einer großen Anzahl von Standardmotiven nach Ihrem Geschmack wählen. Selbstverständlich können wir auch Ihr persönliches Motiv, ob mit Ihrem Namen oder Logo, in das Glas lasern. Fordern Sie einfach unseren Laser-Glas Katalog auf CD an.

You can choose from a range of standard designs to suit your taste. Of course, we can engrave your own personal design in glass - your name, or your logo perhaps. Please ask for our Catalogue on CD-Rom.
